Supplement to THE CHEMICAL AGE, *January* 8, 1938

605 v. 37

The Chemical Age

Index to Volume XXXVII July—December, 1937

A

Acetaldehyde to Acetic Acid, Oxidation of, 125
Acetate Silk Statistics, 397
Acicular Zinc Oxide, 445
Activated Carbon Manufacture, 469
Adhesives from Wood, 9
Adulteration of Food and Drugs, 388
Aluminium Alloys, 199
Aluminium Containers, 157
Aluminium, Separation of, 196
American Chemical Engineering, 101
American Chemical Equipment, 295
American Chemical Society, 77
American Chemicals and Chemical Plant, Exhibition of, 170
Amino-Nitrogen in Insoluble Proteins, 473
Analytical and Advisory Work of the Government Laboratory, 470
Analytical Chemistry, The Year's Progress in, Noel L. Allport, 513
Anglo-Japanese Trade, 56
Annual Chemical Dinner, 428
Armstrong, Death of Professor H. E., 58
Armstrong, Memorial Service for Henry Edward, 81
Association of British Chemical Manufacturers, 327
Atmospheric Pollution, 448
Atom Tracks, Photographs of, 451
Australia, Oil from Coal in, 120
Australian Tariff Changes, 308

AUTHORS—

Allport, Noel L., The Year's Progress in Analytical Chemistry, 513

Barron, H., The Present Position of Synthetic Rubber, 227; Baxter, J. P., and Moore, J. G., The Properties of Chlorinated Rubber, 407; Bentley, A. O., and Cox, D. H. S., Progress in Synthetic Drugs and Pharmaceuticals, 529; Blacktin, Dr. S. C., The Coronation Exhibition of New Inventions, 448; Brenner, M. W., and Poland, G. L., A Laboratory Gas-Washing or Absorption Unit, 411; Brightman, R., Activity in the Dyestuffs Industry, 524; Brittain, Eric H., Recent Developments in Solvents and Plasticisers, 534; Butler, C. D., Oils and Fats: A Review of 1937, 527

Chatfield, H. W., The Manufacture of Paint Products and Lacquers, 531; "Chemical Engineer," Improvements in Constructional Materials for Chemical Plant, 518; Clayton, William, Colloid Chemistry in 1937, 516; Clewell, J. H., and Paine, H. W., Pigments, Lakes and other Colouring Materials in Plastics, 78; Collingridge, George S., Practical Notes on Floor Polishes, 287; "Consultant," Process Variables in Chemical Plant, 247; Cox, D. H. S., and Bentley, A. O., Progress in Synthetic Drugs and Pharmaceuticals, 529

Dreaper, W. P., The Use of a Modern Scientific Library, 139

Engel, Dr. Bruno, Dewaxing Oil Products with Heavy Solvents, 393

Garner, T. L., White Pigments in the Rubber Industry, 331; Colouring Materials in Rubber Compounding, 367; Griffiths, Hugh, Developments in the Design and Operation of Crystallisers, 521

Hall, A. J., Recent Developments in Textile Processing, 3, 94, 194, 369

Jackson, F. A., Fire and Other Risks in Handling Petroleum Products, 253

Kearby, K. K. Dehydrations in the Vapour Phase, 427

Lehrecke, Dr. H., Developments in Phosphoric Acid Manufacture, 347; Leverhulme, Lord, Science in the Service and Direction of Industry, 28

Maxted, E. B., The Nitrogen Industry in 1937, 511; Moore, J. G., and Baxter, J. P., The Properties of Chlorinated Rubber, 407; Morgan, Sir Gilbert T., and Pratt, Dr. D. D., Plastic Materials from Rubber and Tar Products, 117

Paine, H. W., and Clewell, J. H., Pigments, Lakes and other Colouring Materials in Plastics, 78; Peck, William C., Review of Filtration During the Year, 522; Pincas, H. C., The Production of Pure Calcium Carbide, 169; Poland, G. L., and Brenner, M. W., A Laboratory Gas-Washing or Absorption Unit, 411; Pratt, Dr. D. D. and Morgan, Sir Gilbert T., Plastic Materials from Rubber and Tar Products, 117; Prevost, A. H., Notes on the Fatty Alcohols and their Derivatives, 269

Ranshaw, G. S., Synthetic Washing Agents in the Textile Industry, 133; Further Notes on Textile Assistants, 171; Synthetic Organic Compounds in the Textile Industry, 387; Roberts, T., Special Steels in the Chemical Industry, 353

Salmony, Dr. Alfred, Copper in the Construction of Chemical Plant, 409; Seymour, H., Automatic Control of Liquid Level in Tanks and Vats, 135; Stewart, J. C., Safety in a Chemical Works, 255; Stubbs, E., Industrial Uses of the Metallic Resinates, 429

West, J. H., Some Practical Points about Tanks and Vessels, 155; Wright, A. G., Some Fire and Explosion Hazards in Chemical Works Operation, 51; Selecting Containers for the Transport of Chemicals, 151; Safety Considerations in Operating Chemical Plant, 250

Azo Dyestuffs, Identification of, 172

B

Baly, Retirement of Professor, E.C.C., 7
Belgium, Chemical Trade with, 352
Benn Bros., Ltd., Annual Meeting of, 122
Benzole, Chemical and Industrial Uses of, 491
Benzyl Chloride, Production of Pure, 493
Better Industrial Conditions in Scotland, 5
Birmingham University, New Laboratories Opened at, 57
Blast Furnace Process, 211
Bleaching with Sodium Perborate, 119

BOOK REVIEWS—

"Analar" Standards for Laboratory Chemicals, 2nd Edition 178; Analytical Chemistry of Tantalum and Niobium (Schoeller), 178

B.D.H. Book of Organic Reagents for Delicate Analysis and "Spot" Tests, Sixth Edition, 415

Catalytic Processes in Applied Chemistry (Hilditch and Hall), 474; Chemistry of Food and Nutrition (Sherman), 159; Colloid Chemistry (Alexander), 275; Colloid Systems (Von Buzagh), 177

Electricity, Plasticity and Structure of Matter (Houwink), 159; Electrochemistry of Solutions, The (Glasstone), 177; Elementary Physical Chemistry (A. S. and H. A. Taylor), 159; Everyday Science (Haslett), 138

Fine-Grinding in Pebble Mills (Steiner), 274; Fine Structure of Matter, The, Part I (Clark), 336

Gas Burners for Industrial Purposes (Sachs), 274; German Association of Engineers, 374

History of Pharmacy, A (Grier), 374

Industrial Chemistry (Riegel), 275

Keramische Werkstoffe (Singer), 374

Man in a Chemical World (Morrison), 415; Metallography (Desch) Fourth Edition, 415; Modern Glass Working and Laboratory Technique (Nokes), 159

Newer Alchemy, The (Lord Rutherford), 138

Organic Chemistry (Whitmore), 274; Organic Syntheses, Vol. XVII (Fieser), 177

Perspectives in Biochemistry, Edited by Needham and Green, 415; Plastic Guide Book (Kranzlein and Lepsius), 177; Potash Deficiency Symptoms (Eckstien, Bruno and Turrentine in collaboration with Cowie and Hoffer), 374; Principles of Chemical Engineering, Third Edition (Walker, Lewis, McAdams and Gilliland), 415; Processes of the Inorganic-Chemical Industry (Siegel), 159; Protective Films on Metals (Hedges), 336

Quantitative Analysis (Pierce and Haenisch), 138

Reagent Chemicals and Standards (Rosin), 374; Retardation of Chemical Reactions, The (Bailey), 159

Scheme of Inorganic Qualitative Analysis (Stoddart), 474; Steels for the User (Rolfe), 177; Synthetic Rubber (Naunton), 138; Systematic Organic Chemistry (Cumming, Hopper and Wheeler), 274

Text-book of Inorganic Chemistry for University Students, A (Partington), 177; Thorpe's Dictionary of Applied Chemistry (Thorpe and Whiteley), 274; Toxicity of Industrial Organic Solvents, Compiled by Ethel Browning, 474

Very Low Temperatures, Book Two (Crawhall and Kantorowicz), 474; Very Low Temperatures, Book Three (Crawhall), 474

Weeds, Weeds, Weeds (Boys), 474

Boots "Livron" Trade Mark, 59
Boys' Hostels Association Banquet, The, 8
British Association of Chemists, 410
British Association of Chemists at Birmingham, 449
British Association Meeting at Nottingham, The, 189
British East Africa, Commercial Conditions in, 434
British Exports to Argentina, 125
British Industries Fair, 1938, 452
British Overseas Chemical Trade in June, 61
British Standards Institution, 170
Bussey Coal Distillation, 292

C

Calcium Carbide Manufacture, 332
Calcium Carbide, The Production of Pure, H. C. Pincas, 169
Canada as Sulphur Producer, 254
Canada, Chemicals Made in, 335
Canada, Compressed Gases in, 240
Canada, Heavy Chemicals in, 473
Canada, Research in, 15
Canada, Soap Manufacture in, 417
Canada, Tar Distillation in, 412
Cancer-Producing Oils, 237
Carbide Manufacture, 216
Carbide Plant Site, 306
Carbon Black Manufacture, 176
Carbon Dioxide, Solid, 178
Carboys, a Leakproof Closure for, 214
Cellulose Benzylation, 106
Cellulose, Hydration of, 335
Central Agricultural and Scientific Bibliography, 10
Centrifugal Plough, New, 259
Chemical Club, 373
Chemical Council, Function of, 356
Chemical Engineer, The Training of the, 309
Chemical Engineering Congress, 14

Water Determination by Distillation, 473
Water-Repellent Textile Finish, New, 275
Water-Repelling and Softening Agent, New, 291
Water-Soluble Cellulose Ethers, 293
Weed Killers, Chemical, 316
Wetting and Detergency, 60
White Arsenic Production in Rhodesia, 412

WILLS—

Alcock, Alfred Edwin, 418; Armstrong, Professor Henry Edward, 141
Beaumont, Edwin Newton, 239; Bellville, Captain Frank Ashton, 200; Brooke, Charles, 43
Carr, Harold, 218; Carruthers, John Galloway, 358; Cawley, Lord, 296; Crabtree, John, 126; Cruickshank, George Birrill, Jun., 141
Davidson, Thomas, 377; Dunville, Robert Lambart, 66
Eastman, Frank, 200
Feilding, Viscount, 107; Firth, Edward Willoughby, 338; Fletcher, Benjamin Joseph, 87, 141; Ford, Ernest Henry, 218; Fryer, Dr. Alfred Cooper, 418
Gardiner, Sir Frederick Crombie, 338; Garnett, John, 338; Garrow, James Rankin, 218; Geddes, Sir Eric Campbell, 141; Grant, Sir Alexander, 278; Grimwood, Thomas Richard, 180
Higson, Percy John, 296; Huffam, Charles Frederick, 498
Ireland, Walter George, 180
Jackson, John, 160; Jacob, Captain Cedric William, 477; Jones, Herbert Scott, 239
Kater, Robert McCulloch, 396; Kimpton, Alfred Charles, 396
Lewis, Professor David Morgan, 218
MacAlister, David MacDonald, 477; McLean, Hugh, 180; Morton, Lieut.-Col. D. S., 107; Mullins, George William, 418; Murray, Robert Alexander, 160
Reid, Francis, 456; Rose, Sir Hugh Arthur, 396; Ross, Charles Thomas, 180; Rowe, Frank, 43
Savory, Horace Reginald, 239; Simmons, Edward Harry, 498; Smith, Henry Sayles, 396; Smith, Thomas Eustace, 477; Southern, William Eastwood, 296; Sowden, John William, 456
Taylor, Squire, 262; Thelwall, Alan, 160
Walton, Rowland George, 478; Waring, Horace, 477
Young, Henry Bowie, 418

X

X-Rays in Industry, Annealing Low-Carbon Iron, and Growth-Promoting Substances, 234

Y

Yorkshire Section's Welcome, 31

Z

Zinc Corporation Extensions, 77
Zinc Sulphide Pigment, 430

INDEX TO METALLURGICAL SECTION

A

Alloys for All Needs, 13
Aluminium Alloy Treatment, 2
Aluminium Consumption in Germany, 13

B

British Cast Iron Research Association, 27

C

Cadmium in Tin-Rich Alloys, 18
Chemical Colour Finishes for Metals, 34
Coke, The Testing of, 31
Copper Production in the U.S.S.R., 1
Corrosion of Metals in Soils, 26
Cupro-Nickel, Foundry Practice for, 14
Current Cast Iron Research, 31

D

Dental Amalgams, The Setting of, 15
De-Tinning Practice in Germany, 19
De-Tinning Processes Employed, 20

E

Electrodeposition of the Platinum Metals, The, 3
Electrodeposits of Nickel from Steel, Removal of, 28
Electroplating and Electroplaters, Memories of, 33
Etching Reagents for Nickel Alloys, 25

F

"Featherweight" Metals, 13
Fusible Alloys Containing Tin, 23

G

Germany, De-Tinning Practice in, 19
Germany, Light Metal Production in, 7

H

Hydrogen, Occlusion of, by Nickel, 25

I

Industrial Application, 8
Iron and Steel Institute, 18
Iron, Oxide Films on, 2
Italian "Three-Year-Plan," An, 32

L

Lead Concentrates, Treatment of, 2
Light Metal Production in Germany, 7

M

Magnesium Alloys at High Temperatures, 31
Magnesium Production in Japan, 14
Manganese, Electrolytic Production of, 32
Metal Extraction and Mining Developments, 19
Metallurgical Patents, Some Recent, 5, 17, 24, 30, 36

N

New Alloy of High Density, A, 8
Nickel Boride Addition Alloys, 1
Nickel Deposits, Thickness of, 8
Nickel Electrodeposition, Organic Contaminants in, 1
Nickel from Cobalt, Separation of, 7
Non-Ferrous Metallurgy, Recent Progress in, 21
Non-Ferrous Metals Research, 18
Non-Ferrous Metals, World Consumption of, 32
Non-Metallic Elements in Steels, 26

O

Occlusion of Hydrogen by Nickel, 25
Organic Contaminants in Nickel Electrodeposition, 1

P

Pewter, Improving the Hardness of, 14

S

Silver, Industrial Uses of, 26
Special Cast Irons of Chemical Engineering Interest, 9
Surface State and Corrosion, 29
Surface Tension of Molten Enamels, 1

T

Tin and Tinplate in Industry, 35
Tinplate Production by Electrodeposition, 5
Tungsten Carbide, Free Carbon in, 2

V

Vanadium Steels and Iron, 20

W

Wolfram Supplies, 25
